Task 2 (Build Your Student Digital Portfolio)

Part-A

- Create or update accounts on at least three of the following platforms: GitHub, LinkedIn, Kaggle, Stack Overflow, ResearchGate.
- On GitHub: create a profile README (a special repository named after your username) with at least your name, branch, year, and one sentence about what you hope to learn.
- On LinkedIn: fill in your Education section with your current degree, institution, and expected graduation year.
- Take a screenshot of each profile you have set up and add them to the task-2-portfolio/ folder.
- In your project report, write 150–200 words on: which platforms you chose, what each one is used for, and how you plan to use them over the next four year
